Year of completion: 2017

CGPA: 9.30/10

TRAININGS

Full-stack Developer Path

FrontEnd Masters, Online

Jan 2021 - Present

Web Development Bootcamp

udemy, Online

Oct 2020 - Oct 2020

PROJECTS

The H-ash project

Jun 2021 - Jul 2021

<https://h-ash.vercel.app/>

The H-ash project built using MERN stack. I have built this website as my personal portfolio which will also include 'Blog' section in the future updates. I have connected the projects section to the MongoDB, so that I can update the new projects.

Web Development Projects

Oct 2020 - Dec 2020

<https://github.com/ashrithyvs>

Check given github link to view my projects. And also there are other projects that aren't posted on github

The Hash-socket

Jul 2021 - Present

<https://hash-socket.netlify.app/>

The Hash-chat project is a web app built using Socket.io, ReactJs, Express, and NodeJs which allows users to create rooms and invite their friends to have a personal space to chat. I'll be adding MongoDB and Firebase in next deployment.
